This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

44TH CONGRESS, 2d Session. HOUSE OF REPRESENTATIVES. Ex. Doc. No. 46.

ANNUAL REPORT

OF THE

CHIEF OF THE BUREAU OF STATISTICS

ON THE

COMMERCE AND NAVIGATION

OF THE

UNITED STATES

FOR THE

FISCAL YEAR ENDED JUNE 30, 1876.

WASHINGTON:
GOVERNMENT PRINTING OFFICE.
1877.

TREASURY DEPARTMENT, BUREAU OF STATISTICS,

November 10, 1876.

SIR: I have the honor to transmit herewith my annual report and the complete statements in detail of the commerce, immigration, and navigation of the country for the fiscal year ended June 30, 1876, compiled in this office from the returns of the several collectors of customs, in accordance with the provisions of section 336, Revised Statutes.

Very respectfully,

Your obedient servant,

EDWARD YOUNG,

Chief of Bureau.

Hon. LOT M. MORRILL,

Secretary of the Treasury.

CONTENTS.

PART I.—COMMERCE.

Table		Page.
	ANNUAL REPORT OF THE CHIEF OF THE BUREAU OF STATISTICS	IX
1.	Imports, domestic and foreign exports, by customs-districts and principal foreign countries	3–36

REPORT

OF

THE CHIEF OF THE BUREAU OF STATISTICS.

TREASURY DEPARTMENT,
BUREAU OF STATISTICS,
November 27, 1876.

SIR: The Chief of the Bureau of Statistics has the honor to submit the following report of its operations during the fiscal year ended June 30, 1876.

CLERICAL FORCE.

The regular clerical force of the bureau at the close of the year, in addition to the chief clerk, Mr. E. B. Elliott, consisted of 28 male and 10 female clerks, the greater part of whom were employed in the following divisions:

Divisions.	Names of chiefs.	Number of clerks.		
		Males.	Females.	Total.
Examination	J. N. Whitney	4	1	5
Compilation	Thomas Clear	12	2	14
Tonnage and immigration	L. F. Ward	2	3	5
Registry of merchant-marine	J. B. Parker	3	1	4

Other stated and miscellaneous work of the bureau was performed as follows:

Publication and miscellaneous, in charge of James Ryan, (who is also stenographic clerk;) library and files, of E. T. Peters; stationery, pay, property, and copying, of J. D. O'Connell; revision, R. A. McMurray; and translation, A. H. Girard.

In addition to the above, there is also a division, under the superintendence of Joseph Nimmo, jr., for the purpose of gathering and collating statistics of domestic commerce, transportation, &c., which is more fully referred to hereafter.

In addition to the results obtained by the divisions above specified, there has been accomplished much important work of a miscellaneous and special character not classified.

WORK OF THE BUREAU.

The work performed in the several divisions of the bureau has been sufficiently indicated in former reports; and any complete presentation of it here would be but a repetition of previous statements. Nor is it possible to exhibit in a tabular or other condensed statement the great amount of careful and accurate labor, whether of a regular or miscellaneous character, which is performed in the bureau.

During the last session of Congress—a session greatly protracted—the demands for information on behalf of committees and individual members were *unusually numerous and varied*, and the usefulness of

the bureau as an aid to legislation was never more apparent. The recent legislation which has largely reduced its clerical force, and the disallowance of the supply of newspapers and other periodicals heretofore authorized and permitted, are to be regretted, as it will be impossible in the future to respond so readily as in the past to the demands for information on which to base legislation. These demands extend to a great variety of financial and economical inquiries, which the records and files of the bureau are insufficient to supply to the desired extent. Books, newspapers, and other current periodicals are therefore necessary to enable the undersigned to furnish the data required by our legislators.

REDUCTION OF THE CLERICAL FORCE.

In view of the fact that the clerical force of the bureau suffered a reduction of ten under the legislation of the last session of Congress, it is deemed proper to quote the following extract from the report of the undersigned for the fiscal year ended June 30, 1874, showing, as it does, the diminished force and reduced expenditures of the bureau during the 53 months of the time in which it has been under his direction:

Section 13 of the act of July 28, 1866, provided for the detail and appointment of such clerks as might be necessary to fully carry out the provisions of the act establishing the bureau, without any limitation as to their number or classification. For the first three months the number of clerks averaged about 42, increasing to 49 in the year 1867, and to 54 in 1868, in which latter year the monthly pay-roll for the officers, clerks, and six messengers and laborers averaged $6,502. In March, 1869, a reduction in the clerical force was commenced, which continued during the year until the number of employés was reduced from an average of 61 in the first quarter to 52 in the last quarter of that year and to 49 in January, 1870. From this date, the number employed was still further reduced, the reduction continuing throughout the 53 months ended June 30, 1874, during which period, although the work of the bureau gradually increased, the number of employés averaged but 45½, or about 8 less than during the previous 40 months, while the monthly pay-roll showed a reduction from $5,947.88 in the earlier period to $5,307.19 in the later, a saving of $640.69 per month, or $33,956 during the time in which the bureau has been under the direction of the undersigned.

And when, under the act of July 12, 1870, it became necessary to submit to Congress an estimate of the number of clerks and other employés required in the bureau, no request was made for an increase of force to provide for the gradual increase of work incident to the growth of the country, and to that growing interest in economic questions which manifests itself in an enlarged demand for the publication of commercial, industrial, and financial statistics, and in a constantly increasing number of applications for such statistics on the part of legislators, economists, business-men, and writers for the press.

The following statement shows, in detail, the number of clerks and other employés, with the average amount of their monthly salaries, including those of the chief officers of the bureau, from the establishment of the bureau to June 30, 1874:

Periods.	Males.	Females.	Messengers and laborers.	Total.	Amount.
From October 1, 1866, to December 31, 1866, average	28.33	13.33	(*)	41.66	$4,309 01

* Detailed from bureaus of the Treasury.

In view of the fact already presented that the increased work of the bureau had *been performed* during the past four and a half years with a diminished force, and that *owing to this increase of work* it became necessary to ask for a detail of several *additional clerks during the latter months* of the past fiscal year, the announcement that

the regular force was diminished by Congress to the extent of four clerks, while clerks detailed from other offices were no longer to be obtained, occasioned deep regret. This reduction of force must have been recommended by the House Committee on Appropriations under a misapprehension of facts, as they certainly had no intention to cripple the bureau, yet it is none the less severe in its operation. Any reduction in the scope of its work, or diminution in the frequency of publication of important commercial statements, is deemed unadvisable, as such a curtailing of the work of the bureau would necessarily impair its usefulness to the public. Indeed, the demands upon it are steadily in the direction of increased activity, necessitating the cultivation of a more extended field of inquiry.

The large reduction of the clerical force of the bureau, already mentioned, will be best indicated by a comparison of the above table with the following statement of the number of clerks authorized by the legislation of the Forty-third and Forty-fourth Congresses:

	Number of officers and clerks.		Messengers and laborers.	Total.
	Males.	Females.		
Fiscal years 1875 and 1876	30	8	3*	41
Present force, act of August 15, 1876	21	7	3*	31

* One messenger, one laborer, and one charwoman.

As the reduction made under act of August 15, 1876, did not fully take effect until October 10, in the current fiscal year, the regular work of the bureau suffered but little interruption or delay, and the compilation of statements for the Eighth Annual List of Merchant Vessels and for the Annual and Quarterly Reports of Commerce and Navigation were prepared for the press nearly as early as usual. Of late the routine work of the bureau is to an important extent retarded.

It is unnecessary to add that every exertion will be made in future to prevent delay in the work of the bureau and to suffer its usefulness to be impaired as little as possible.

PUBLICATIONS OF THE BUREAU.

Quarterly reports.—During the last fiscal year, in obedience to the provisions of an act of Congress, the quarterly reports have been regularly compiled and published, containing statistical information of a character similar to that embodied in the monthly reports which were previously published. The views of the undersigned in regard to the undesirableness of the change have experienced no modification since his last annual report was prepared, and these views are strengthened and confirmed by the expressions of regret which have been received during the year and up to the present moment from editors of leading commercial journals and other persons whose experience gives weight to their opinions. Indeed, the desire for monthly data in regard to our foreign trade has been partially met by the issue, monthly, of summary statements of our exports and imports.

Annual Report of Commerce and Navigation.—The statements for the Annual Report of the Chief of the Bureau of Statistics, showing the commerce, navigation, and immigration of the United States for the fiscal year ended June 30, 1876, were compiled, and the earlier portions sent to press as early as in previous years. As no provision has yet been made to supply the Department with copies of this important document for distribution, the undersigned earnestly calls attention to the omission, and quotes from his report of last year the following remarks, urging the importance of supplying the deficiency by appropriate legislation:

For many years prior to the adoption of the Revised Statutes the annual supply of 300 copies of the Report *of the Chief of the Bureau of Statistics* on Commerce and

Navigation was authorized by law to be printed for the use of the Treasury Department. This provision of law was, for some cause unknown, (probably through inadvertence,) omitted from the Revised Statutes. Much difficulty has been experienced in securing copies for the use of the Department, application having to be made for the last volume to individual Representatives and Senators for a portion of the supply to which they were each by law entitled. As the report is not stereotyped, and as it is therefore impossible to obtain additional copies after the type has been distributed, it became necessary that a requisition should be made for 200 copies of the forthcoming report in order to secure at least a partial supply.

Owing to the present considerable and increasing demand, at home and abroad, for this document, it is highly desirable that Congress annually provide for a supply for the use of the Departments of the Treasury and of State of not less than 1,000 copies. To supply our customs-officers alone, which is essential, will require from 200 to 300 copies. It is also essential that chambers of commerce, boards of trade, and other commercial bodies, as well as writers on commercial and economical affairs, be provided with copies, all of which have heretofore been supplied by the bureau so far as it had the means, and they still rely upon it for a future supply.

Giving in detail, as this annual does, the statistics of our trade with each foreign country, and of each of our customs-district, it possesses great value, not merely to statesmen, legislators, and commercial men in this country, but to our ministers and consuls abroad, as well as to foreign statisticians and public officials, who are earnestly desirous of an interchange of statistical publications.

The commercial interests of the country, therefore, imperatively demand that each United States legation and consulate be furnished with a copy of this annual. For like reasons, it is also in a high degree desirable that the applications for it, made to the Department of State by foreign governments, should be promptly honored. In comparison with the large cost of the composition of 1,100 pages of rule-and-figure work, the expense of paper, press-work, and covers for the additional number now urgently requested would be inconsiderable.

List of Merchant-Vessels of the United States.—The eighth annual statement of "Vessels Registered, Enrolled, and Licensed under the laws of the United States, designating the class, name, and place of registry," as well as the official number and signal-letters awarded to each vessel, was prepared and 2,500 copies published for distribution to the officers of customs, the masters of vessels engaged in the foreign trade, and the principal ship-owners, as well as to the commanders of United States war-vessels. This list also includes, as do previous volumes, the vessels belonging to the revenue marine, giving the date and place of building and the number of officers and men; also the vessels now belonging to the United States Navy, giving the name, rate, class, guns, tonnage, means of propulsion, and station of each. The value of this list has been further enhanced by the insertion of a diagram or chart of the flags used in conveying distinguishing signals, according to the system known as "The International Code of Signals," together with a brief explanation in regard to their use.

SPECIAL REPORT ON IMMIGRATION.

Copies of this report in the French and German languages continue to be forwarded to the continent of Europe, for distribution in the countries where these languages are spoken. As the English edition is entirely exhausted, and as it is important that a supply of this edition be kept at each United States consulate in the United Kingdom, it is earnestly recommended that two thousand copies be printed from the stereotype-plates, for distribution in English-speaking countries to intending emigrants, which report should contain, also, a map of the United States. The translation of this report into the Swedish language was mentioned and the publication suggested in the report of 1874, and the suggestion repeated in that of last year. The recommendation for its publication and distribution in Scandinavian countries is again urged.

LABOR IN EUROPE AND AMERICA.

The special report of the undersigned on the rates of wages, the cost

of subsistence, and the condition of the working-classes in Great Britain, Germany, France, Belgium, and other countries of Europe, also in the United States and British America, was submitted through your predecessor to Congress, at its last session, and ordered to be printed. The Senate of the United States subsequently ordered five hundred copies for its members, and three hundred to supply legations and consulates of the United States in foreign countries. Appreciative acknowledgments of the value of this work have been received from prominent persons in various parts of Europe and America. In regard to that portion which relates to the United States, the following extract from last year's report is again presented, and attention directed to the recommendation in the closing sentence:

It may be proper to remark that the rates of wages and prices of provisions in the United States, which are given in the tables, are based upon data obtained in part through officers of internal revenue, and in part from the proprietors of industrial establishments and other employers of labor. In many cases the circular of inquiries sent out by the bureau failed to elicit replies from those to whom it was addressed, and the returns from some of the States were consequently so meager that the mean rates of wages and the mean cost of the leading articles of subsistence deduced therefrom could not be considered as marking the true average for each State. To remedy this defect in future editions, it is desirable that means should be provided to enable the chief of the bureau to make investigations on those subjects in the chief centers of manufacturing industry, and in the principal agricultural districts of the country, by means of personal inquiry, as was done in some European countries, especially in Great Britain, Belgium, and Germany.

STATISTICS OF DOMESTIC COMMERCE, TRANSPORTATION, ETC.

Extract from an act approved March 3, 1875.

It shall be the duty of the officer in charge of the Bureau of Statistics to gather, collate, and annually report to the Secretary of the Treasury, for transmission to Congress, statistics and facts relating to commerce with foreign nations and among the several States, the railroad systems of this and other countries, the construction and operation of railroads, the actual cost of such construction and operation of railroads, the actual cost of transporting freights and passengers on railroads and on canals, rivers, and other navigable waters of the United States, the charges imposed for such transportation of freight and passengers, and the tonnage transported.

In accordance with the provisions of law above cited, a division was formed in this bureau at the commencement of the last fiscal year for the purpose of carrying into effect the intentions of Congress in this regard. Experts, selected on account of their experience in commerce and transportation, have been employed, and by this means much statistical and other valuable information has been collected. The report upon this subject is nearly completed, and will be made to the Secretary for transmission to Congress at the earliest practicable moment. This report will treat of the general movements and conditions of commerce, and will be somewhat introductory in its general treatment of the subject. It will form Volume II of my Report on the Commerce and Navigation of the United States.

DECLINE IN IMMIGRATION.

The decline in immigration mentioned in the last three reports has continued during the last fiscal year, showing a falling off of 57,512 from 1875, and of 289,817 from 1873, when the culminating point was reached. The hope is entertained that the prostration of business in this country, which has been felt and deplored for the last three years, has reached its lowest depression, and that the faint indications of returning prosperity which are now apparent will increase in volume until the demand for labor shall regain its normal activity.

The following comparative *statements will exhibit* the leading facts *connected with immigration for several years past:*

TABLE I.—*Comparative statement of immigration and emigration for the five fiscal years from July 1, 1871, to June 30, 1876, inclusive.*

Passengers.	Year ended June 30—					Total.
	1872.	1873.	1874.	1875.	1876.	
Total number of passengers arrived in the United States	472,034	520,885	375,679	295,530	237,991	1,902,119
Total number of passengers departed from the United States	92,904	119,154	134,686	160,786	131,718	639,248
Excess of arrivals over departures, or total increase of population by immigration	379,130	401,731	240,993	134,744	106,273	1,262,871
Passengers not immigrants:						
Citizens of the United States returning from abroad	49,056	47,744	47,730	50,898	47,986	243,414
Aliens not intending to remain in the United States	18,172	13,338	14,610	17,134	20,019	83,273
Total non-immigrants	67,228	61,082	62,340	68,032	68,005	326,687
Total aliens, *i. e.*, total arrivals less citizens of the United States	422,978	473,141	327,949	244,632	190,005	1,658,705
Net immigration	404,806	459,803	313,339	227,498	169,986	1,575,432
Net emigration, estimate*	25,676	58,072	72,346	92,754	63,713	312,561

TABLE II.—*Comparative statement of immigration for the five fiscal years from July 1, 1871, to June 30, 1876, showing New York and "all other" districts separately.*

Passengers.	Year ended June 30—					Total.
	1872.	1873.	1874.	1875.	1876.	
Total number of passengers arrived in the United States:						
New York	311,735	337,824	229,443	164,294	116,589	1,159,885
All other districts	160,299	183,061	146,236	131,236	121,402	742,234
Passengers not immigrants:						
Citizens of the United States returning from abroad:						
New York	24,828	27,591	31,294	29,795	28,761	142,269
All other districts	24,228	20,153	16,436	21,103	19,225	101,145
Aliens not intending to remain in the United States:						
New York	3,681	2,899	4,005	3,505	5,455	19,545
All other districts	14,491	10,439	10,605	13,629	14,564	63,728
Total non-immigrants:						
New York	28,509	30,490	35,299	33,300	34,216	161,814
All other districts	38,719	30,592	27,041	34,732	33,789	164,873
Net immigration:						
New York	283,226	307,334	194,144	130,994	82,373	998,071
All other districts	121,580	152,469	119,195	96,504	87,613	577,361
Aliens:						
New York	286,907	310,233	198,149	134,499	87,828	1,017,616
All other districts	136,071	162,908	129,800	110,133	102,177	641,089

* Excess of total passengers departing over the number of passengers arriving who are not immigrants; this method of arriving at the estimate being based on the consideration that, in a series of years, the number of non-immigrant passengers arriving, both citizen and alien, will equal the number of non-emigrant passengers departing.

TABLE III.—*Comparative statement of immigration, by countries, ethnologically grouped, for the six fiscal years from July 1, 1870, to June 30, 1876.*

Countries.	Year ended June 30—						Total.
	1871.	1872.	1873.	1874.	1875.	1876.	
England, Scotland, Wales:	*85,455	84,894	89,482	61,999	47,889	29,279	398,998
Ireland	57,439	68,732	77,344	53,707	37,957	19,575	314,754
Teutonic:							
Germany, Austria, Netherlands	88,431	147,200	159,247	97,623	55,888	37,583	585,979
Scandinavian:							
Sweden, Norway, Denmark	22,132	28,575	35,481	19,178	14,322	12,323	132,011
Latin:							
Belgium, Switzerland, France, Italy, Spain, Portugal	9,833	18,860	28,361	21,694	15,684	13,965	108,397
Slavonic:							
Russia, Poland	1,208	2,641	4,898	5,755	8,966	5,689	29,157
China	7,135	7,788	20,292	13,776	16,437	22,781	88,209
British North American provinces	47,082	40,176	37,871	32,960	24,051	22,471	204,611
Spanish and Portuguese colonies:							
Mexico, South America, Cuba, Porto Rico	1,218	1,500	1,760	1,536	1,954	1,512	9,480
All other countries	1,417	4,440	5,067	5,111	4,350	4,808	25,193
Total immigrants	321,350	404,806	459,803	313,339	227,498	169,986	1,896,782

* 16,042 of this number were reported as from "Great Britain, not specified."

TRADE WITH CANADA.

During the year ended June 30, 1876, the total value of domestic merchandise and produce exported to Canada, and which was omitted in the returns of the United States customs officers on the Canadian border, as appears from the official statements furnished by the commissioner of customs of the Dominion, amounted to $10,507,563, as against $15,596,524 in the preceding year, and $11,424,566 in 1874.

The following statement shows the character of the articles exported to the provinces of Ontario and Quebec during the last fiscal year of which no returns were made to this bureau from the United States collectors of customs on our northern border:

Statement, according to Canadian accounts, showing the imports into Canada from the United States in excess of the domestic exports from the United States to Canada, as returned to the Bureau of Statistics by United States collectors of customs, during the fiscal year ended June 30, 1876.

Blacking	$11,394	Gas fixtures and chandeliers	42,791
Books, pamphlets, maps, and other publications	325,854	Jewelry and other manufactures of gold and silver	63,008
Brass and copper, manufactures of	258,500	Hair and manufactures of	30,976
Bricks	14,853	Hats, caps, and bonnets	246,869
Brooms and brushes of all kinds	86,913	Hides and skins, other than fur	728,695
Carriages, carts, and parts of	102,128	India-rubber and gutta-percha manufactures	82,969
Cars, railroad, passenger and freight	21,598	Iron and steel, and manufactures of	2,223,947
Clocks and parts of, (including watches)	151,456	Leather, and manufactures of	158,153
Coal	538,508	Boots and shoes	110,466
Cordage, rope, and twine of all kinds	22,538	Musical instruments:	
Cotton, manufactures of	1,593,285	Organs, melodeons, &c	81,448
Drugs, chemicals, and medicines	60,904	Piano-fortes and all other	225,626
Dye-stuffs	85,768	Naval stores	$11,943
Fancy articles	268,320	Oils:	
Fruits	60,264	Mineral	34,733
Furs and fur-skins	*31,275*	Whale and other fish	84,959
		Linseed	11,186
		Ordnance stores, gunpowder	28,187
		Paints and painters' colors	63,777

Paintings and engravings	45,729	Tobacco and manufactures of:	
Paper and stationery	279,832	Cigars	17,179
Printing presses and type	87,959	Snuff and other manufactures of	19,434
Provisions:		Varnish	28,096
Fish, including oysters	410,688	Wine	16,498
Potatoes and other vegetables	72,108	Wool, raw and fleece	189,512
Rags	71,282	Wool, manufactures of	349,439
Seeds, clover, timothy, garden, and all other	10,208	All articles not enumerated:	
Sewing-machines, and parts of	41,966	All other manufactured articles	541,139
Spirits of turpentine	24,217	All other unmanufactured articles	363,467
Tobacco and manufactures of:			
Leaf	75,519	Total	10,507,563

It will be observed that the greater portion in value of these articles exported to Canada, of which no official returns are made to this bureau, consists of manufactures of cotton, wool, iron, copper, &c., which require in their production the employment of no inconsiderable amount of capital and skilled labor. Where such important interests are involved it is highly desirable that our accounts of exports shall show as completely as is possible the amount and character of the surplus produce and manufactures sent out of the country, and the exact amounts taken by each country. Especially is it important that in all legislation affecting our friendly business intercourse with Canada, our accounts of commercial exchanges with that country shall be of such a character as to furnish a safe guide to wise legislation, instead of being liable to mislead, as they now may by reason of their incompleteness.

In the reports for the fiscal years 1874 and 1875 attention was directed to this subject, and the defective legislation, which rendered it almost if not quite impossible to obtain full and accurate statements of our exports to Canada, pointed out. As no legislation has since taken place providing a remedy for this defect, the undersigned again respectfully but earnestly requests that the facts already submitted be brought to the attention of Congress at the ensuing session, and that legislation be asked for extending to railroad-cars and other land-vehicles passing from the United States into adjacent foreign territory, requirements in regard to the filing of lists or manifests of their lading similar to those now provided by section 337 of the Revised Statutes with respect to vessels clearing for foreign countries.

INTERNATIONAL STATISTICAL CONGRESS.

The ninth session of the International Statistical Congress was held at Buda-Pesth, Hungary, in September last, but was not attended by the undersigned, nor by any official delegate from the United States.

The following programme indicates the work assigned to the several sections and the different subjects submitted to the consideration of the Congress.

SECTION I.—THEORY OF STATISTICS AND STATISTICS OF POPULATION.

1. Statistics as an object of primary, secondary, and superior instruction.

2. On what bases must statistics rest to obtain exact tables of mortality?

3. Under what form should periodical reports on the movement of population of great cities be prepared in order that they may be compared?

SECTION II.—JUSTICE.

1. *The judicial docket* and repetitions of crime.
2. *Public records of mortgages*, (cadastre.)

SECTION III.—MEDICAL SECTION AND PUBLIC HYGIENE.

1. International statistics of epidemic diseases.
2. Statistics of cholera.
3. Statistics of baths and mineral-waters.

SECTION IV.—AGRICULTURE AND SYLVICULTURE.

1. Statistics of agriculture.
2. Statistics of forest-culture.
3. Agricultural meteorology.

SECTION V.—MANUFACTURES, COMMERCE, TRANSPORTATION, FINANCE.

1. Statistics of household manufactures.
2. Statistics of accidents and deaths in manufactories resulting from the work itself; insurance against accidents, and statistics of institutions established for the benefit of the laboring classes in large manufacturing establishments.
3. What are the best rules by which the general accounts and tables of foreign commerce should be made up?
4. Statistics of railroads and of the transportation of merchandise of interior commerce.
5. Plan for keeping accounts of the finances of great cities.

For the consideration of the general assembly.

1. Fund to the memory of Mr. Quetelet.
2. Plan of an international statistical bibliography.
3. Report on the statistics of steam-engines and the industrial statistics of Germany.

The congress was attended by 455 members, of whom 282 were Hungarians and 173 foreigners, including 75 from Germany and Austria.

The chief of this bureau was an official delegate of the United States to the International Statistical Congress, which held its eighth session at St. Petersburg in August, 1872, and participated in its work, being chiefly engaged in the two important sections of commerce and of industry. In the former, he was a member of the committee charged with the preparation of a plan for the uniform nomenclature and classification for international purposes of mercantile commodities to be adopted in the published statements of external commerce, and also in the records of the movement of merchandise by railways and on navigable waters. The report of the committee on this subject was approved and recommended by the section, and subsequently adopted by the congress, but, although considerably modified at the instance of the undersigned, neither the classification nor, in every respect, the recommendations met his entire approval. The recommendations of the congress were, however, to be submitted to the bureaus of statistics of the different countries, in order that amendments or corrections should be suggested and urged at the succeeding session, in the hope that all objectionable features would be removed, and a plan adopted which would fully meet the approval of leading statisticians in all the countries represented.

It was in a high degree desirable, therefore, that this bureau should be represented at the ninth session of the International Congress, in order that the important work above indicated might be finally completed and the details perfected. As no appropriation was made by the Congress of the United States to defray the necessary expenses incident to the journey to Pesth, the Government and the bureau were unrepresented, and the benefits which might have resulted from the participa-

tion in the deliberations of the Statistical Congress by the undersigned, or by any official delegate, were not realized.

Nor were any delegates present from this country, as at several previous sessions, either as representatives of statistical or other associations, or as individuals specially interested in and possessing an intimate knowledge of some of the subjects which received the consideration of the congress.

The absence of any delegates from the United States at the late session was the more remarked* in consequence of the comparatively large delegation, official and unofficial, which attended the session at the more distant city of St. Petersburg, at which meeting an unofficial invitation was extended to hold the next session of the Statistical Congress in the United States of America; which was, in 1873, supplemented by an official invitation by the President of the United States, in pursuance of a joint resolution of Congress. It was not unreasonable to suppose that after sufficient interest had been evinced by the Government and people of the United States to desire a session of this international institution to be held at Washington, attended as necessarily it would be with no inconsiderable expense, enough of sympathy with the objects of the association would continue to be manifested to send at least one delegate to attend its session at Pesth.

NUMBER AND TONNAGE OF VESSELS.

A statement showing the number of vessels and amount of tonnage belonging to the different customs-districts of the United States on the 30th of June, 1876, geographically classified, is appended to this report, (marked A.) The aggregate tonnage therein given is as follows:

Class of vessels.	Vessels.	Tons.
Sail	17,741	2,379,005
Steam	4,208	1,115,441
Unrigged	6,124	748,745
Total	28,073	4,243,191

There is a large apparent reduction in the number and tonnage of unrigged vessels, as above stated; but this is owing to the fact that vessels of this class, with a few exceptions, are exempted by the act of April 18, 1874, from enrollment and license, and do not appear in the returns of tonnage belonging to the several customs-districts since that period.

IMPORTS AND EXPORTS.

Detailed statements of imports into and of domestic and foreign exports from the United States during the fiscal year 1876, as compared with that of 1875, in which the increase and decrease are respectively indicated, are appended to this report, (marked B.)

Very respectfully, yours,

EDWARD YOUNG,
Chief of Bureau.

Hon. LOT M. MORRILL,
Secretary of the Treasury.

* Dr. Engel, the eminent statistician, director of the Royal Prussian Statistical Bureau, writes under date of September 23, 1876: "The statisticians of the United States were greatly missed at the International Statistical Congress at Buda-pest. The members did not even learn the cause of their absence. I hope that it was not sickness *which prevented our trans*-Atlantic colleagues from undertaking the arduous journey."

APPENDIX A.—UNITED STATES MERCHANT MARINE.

Table exhibiting the number of merchant-vessels and amount of tonnage belonging to the several customs-districts and ports of the United States, June 30, 1876.

NOTE.—It should be borne in mind that the above table purports to include all vessels *belonging* to the several ports specified, "without regard to the character of their marine papers." It includes, therefore, not merely vessels permanently documented at any specified port, but also vessels *belonging* at such port, though temporarily documented at other ports. It does not include, however, vessels belonging to other ports but which are temporarily possessed of marine papers from the specified port.

The amount of tonnage owned at each of the specified ports, as shown by this table, cannot therefore, as a rule, be the same as the amount of tonnage (permanent and temporary) documented at such port.

Previous to the passage of the act of April 18, 1874, canal and other boats employed on inland waters or canals were required to be enrolled and licensed under the provisions of the act of February 18, 1793, if they entered navigable waters, and, from the fact of such enrollment and license, were included in the returns of tonnage belonging to the several customs-districts and ports of the United States at the close of each fiscal year ending June 30. The act of April 18, 1874, exempts this class of vessels, with but few exceptions, from enrollment and license, and hence they do not appear in the returns of tonnage belonging to the several customs-districts since that period. The difference between the tonnage reports of unrigged vessels previous to and since the passage of the above last-named act is assumed to be the amount dropped in consequence of the passage of said act.

APPENDIX B.

IMPORTS.

COMPARATIVE STATEMENT, *compiled from Monthly Returns of Collectors of Customs, showing the declared quantities and values of* IMPORTS *into the* UNITED STATES *during the fiscal years ended, respectively, June* 30, 1876 *and* 1875; *corrected to November* 27, 1876.

No. 11.—*Comparative Statement of Immigration and Emigration for the nine fiscal years from July 1, 1867, to June 30, 1876, inclusive.*

YEARS ENDED—	Total number of passengers arrived in the United States.	Total number of passengers departed from the United States.	Excess of arrivals over departures, or total increase of population by immigration.	PASSENGERS NOT IMMIGRANTS.			Total aliens, i. e., total arrivals less citizens of the United States.	Net immigration.	Net emigration.*
				Citizens of the United States returning from abroad.	Aliens not intending to remain in the United States.	Total non-immigrants.

* As the returns received by the Bureau of passengers departing from the United States do not distinguish permanent emigrants from transient travelers, the figures entered in this column have been derived from the body of the table by deducting the number of "non-immigrants" from the whole number of departures for each year, the process being based on the consideration that of the former number those who are reported as "citizens of the United States" have previously departed and been embraced in the reports of departures, while those reported as "aliens not intending to remain" will depart in future and be so reported. These figures will therefore be substantially correct for any series of years, but may not be strictly so for any one particular year.

No. 12.—*Comparative Statement of Immigration and Emigration for the nine calendar years from January 1, 1867, to December 31, 1875, inclusive.*

YEARS ENDED—	Total number of passengers arrived in the United States.	Total number of passengers departed from the United States.	Excess of arrivals over departures, or total increase of population by immigration.	PASSENGERS NOT IMMIGRANTS.			Total aliens, i. e., total arrivals less citizens of the United States.	Net immigration.	Net emigration.*
				Citizens of the United States returning from abroad.	Aliens not intending to remain in the United States.	Total non-immigrants.
